Email: kedir_abdurohman@yahoo.com

Profile Summary

As a precise summary, I am a multifaceted professional with over fifteen years of experience in economic affairs, health financing & insurance, and data analysis. Throughout my career, I have successfully managed and implemented programmatic reforms that delivered measurable results through monitoring, evaluation, and advisory functions that strengthened institutional performance.

In recent years, I expanded my professional versatility by gaining advanced skills in Full-Stack Web Development and Microsoft Power BI. As a learning project, I have cloned websites such as NETFLIX, AMAZON, EVANGADI-FORUM, and AbeGarage, and I analyzed Adventure Works business data by extracting, cleaning, and visualizing sales and revenue trends in Power BI.

My academic foundation in Economics (BA) and Development Economics (MSc), complemented by strong analytical and stakeholder engagement skills, positions me to drive sustainable growth, innovation, and continuous improvement.

Skills

- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, MySQL, Firebase, GitHub
- **Data Analysis:** Stata, SPSS, R-Language, Microsoft Power BI
- **Project Management:** Strategic Planning, Monitoring & Evaluation, Legal Framework Development
- **Languages:** Amharic (Fluent), English (Excellent), Arabic (Good), Afan Oromo (Basic)
- **Car Driving Skills:** Licensed in PUBLIC-I and Motorbike.

Education
